

European Drug Utilization Conference 2025

Join us at Uppsala University, the oldest university in the north, for a scientific meeting with educational courses for researchers, healthcare professionals, students and PhD candidates, experts in public authorities and all others interested in quality use of medicines.

Plenary and keynote sessions:

- Informing drug policy decisions on access to medicines
- AI as aid and challenge
- One Health and Drug Utilization
- Evidence generation for the introduction of new drugs using RWD
- Health literacy and patient engagement

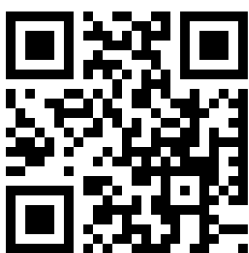

Basic and advanced level educational sessions for several topics, such as introduction to DUR, qualitative/ quantitative mixed methods, longitudinal drug utilization studies, measuring medication adherence, critical appraisal of statistics in DUR and environmental DUR. Oral presentation of submitted abstracts and digital posters.

 Venue: University Main Building, Uppsala
